

....coming soon.....

new stories, information, training tips & more uses for the toys

WHILE YOU WAIT – TRY THIS Horses Just Wanna Have Fun TIP

Ask your vet if you can mix dry jello with your medications.

We mix dry berry flavored jello with our dry meds in baggies and add a little water.

Pour the mixture over their feed – they love it. Its great to see their red lips!!

No more mixing it with applesauce and filling the old bute syrnages for our horses!
