

Frequently Asked Questions

I can't find the manual on the DVD – what can I do?

The manual is an Adobe PDF file that is on the DVD. You will need to have a DVD readable Drive on your computer – if you have a CD Rom on your computer, you will not be able to access the file.

Insert the DVD into your DVD drive. If your computer is set to auto play the DVD, the movie Will most likely start. Close the browser that is open. Then click START, then MY COMPUTER.

Locate your DVD drive and right click the drive to open the explorer. Click on the file

Manual.pdf to open the file.

My horse is afraid of the new toys, what do I do?

Introduce each toy to your horse when she is in a learning frame of mind. Do not force your horse

To explore the toys. Let her look at parts of it, let her smell it, help her see that it will not

Hurt her and she will soon learn to enjoy playing with her new toys.
