

TOY TIPS

Don't be afraid to combine the toys to make more interesting obstacles.

Adding different items to your carwash will keep your horse interested in her toys.

Combining carwashes, squeezes and the bridge or pedestal can be used to simulate

Trailer loading. Your horse will learn to go under, through and over things.

Use the toys for you to stand on and have your horse move through other toys.

Play mounted games with the cholla – try to rope it and drag it or toss it back and forth.

Throw the ball back and forth or set up the carwash as a goal post and play ball.

Use your imagination!!

Remember – if you have some really fun ideas – send us an email – we love to see

What others are doing with the
toys.
